

New Midlevel Provider

ACT has recently added another Nurse Practitioner to their staff: Allison Conaway, APRN-CNP. She received her Masters in Nursing from the University of Oklahoma and completed her Nurse Practitioner education through Purdue Global University. Allison comes to us with 16 years of experience including time spent in SICU, Dermatology, Oncology infusion and Primary Care clinics. She is also a Board-Certified member of the American Academy of Nurse Practitioners. Allison lives in Broken Arrow with her husband, Sean. Allison and Sean have 3 kids; 2 girls, ages 23 and 16, and one boy, age 18.

Food for the Future

Since the pandemic began, there are more than 600,000 families in need of something as simple as a meal. Now, more than ever, people are worrying where their next meal will come from.

This holiday season, ACT has decided to assist in meeting this need. In conjunction with the Community Food Bank of Eastern Oklahoma, we have initiated a “Food for the Future” campaign, donating \$5,000 to kickstart the fundraising goal of \$50,000 this holiday season. In addition to the corporate donation, several clinic staff members have also personally donated to assist in providing these much needed meals.

We have spread the word to our referring physicians and vendors and challenged them to help us meet this goal.

If you would like to contribute towards this cause, please check out our Facebook page for our “Food for the Future” post. Also, feel free to share, share, share! The more the word gets out there, the better chance of providing meals to everyone who needs one.

Scan card now required for Allergy Injections

For your safety, your scan card for shots is an added layer of identification. We are now requiring everyone to have a scan card which properly identifies each patient coming in for allergy treatment. If you do not have a scan card, simply check-in at the front desk at the normal location where you receive your shot. As always, your first card is free. If a replacement is required, there is a nominal \$2.00 fee for the new card.

2020 Insurance Changes

The new year is fast approaching which means insurance changes, whether it’s a new card, new policy, new company, etc. Please make sure to contact us with any changes so that we may update your chart with the correct information. In 2021, all patients will need to sign an updated Medical Consent to Treat and Financial Policy

Christmas

December 24 & 25, 2020

All offices closed

New Year

January 1, 2021

All offices closed

ACT Still has Flu vaccine available

A reminder our vaccine is completely preservative free and is Quadrivalent, which means it protects you from 4 different strains of flu. Stop by today, no appointment needed.

Insurance restrictions may apply.

Olympia Only

December's Employees of the Month

Clinical Employee: Jeana

Jeana came to the Allergy Clinic on July 8, 2019. Since that day, she has aspired to be one of the organizations best nurses. She began as a roomer and was quickly promoted to the extract lab after her skill was recognized. She is currently established as one of the front lab's AI nurses caring for our patients on allergy treatments. She is confident, steady, and dependable and well deserving of being named December Employee of the Month. Congratulations, Jeana, on a job well done!

Non-Clinical Employee: Tara

Our non-clinical December Employee of the Month is Tara! Tara is a benefits coordinator for ACT who has been with us two years. When COVID infection protocols were set into motion earlier this year, Tara worked diligently on verifying telehealth visits for our patients who were unable or unwilling to come to the office in person. She continues this important function still today. She has also assisted with benefit training of newer team members. Tara is quick to lend a hand to help others with benefits, document uploads and faxes. She is kind to other staff members and always thinking of others. She is a great asset to the front office team at ACT! Congratulations, Tara!

End of Year Extract Refills

Many patients may realize they have funds remaining in their flexible spending accounts or have met their annual insurance deductible and request an end of year refill. For 2020 end of year refills, Allergy Clinic of Tulsa has set the following guidelines:

1. We will process End of Year refill only if there is less than a 90 day supply on hand (similar to the way you order other maintenance medications).
2. The request **must** be made no later than December 14, 2020 and signed for by the patient/guarantor.
3. While we will do our best to honor all requests, we cannot guarantee the refill will be processed by year end.

It is recommended that you order as early as feasible given the above guidelines.

Anniversaries

Cindy

We would like to wish Cindy a Happy 5th Anniversary at Allergy clinic of Tulsa. She has been a huge help to Dr. Medagoda the past 5 years. She has also been our OSHA officer for all 5 clinics. She is also valuable in skin testing. She has covered with almost every provider here at ACT at one time or another. Cindy is one of the best coworkers you could ever want to work with. Her kindness and compassion for ACT patients is outstanding. It has been exciting to watch her grow and learn new things over the past 5 years. She approaches everything with a positive attitude. Cindy is a great asset to the nursing department and ACT. From the entire staff at the Allergy Clinic, Happy 5th Anniversary Cindy.

Karen

Allergy clinic of Tulsa would like to wish Karen a Happy 5th Anniversary. Karen has been part of the ACT nursing team since December 2015. Karen started as a rooming nurse and when Dr. Mourad came to ACT she became his closing nurse. Since arriving at ACT she has developed a skill set for rooming, closing and is a really good skin tester. Karen has shown great pride and care in all she does. She takes on each day as a challenge and is excited when the end of the day is successful. She takes such excellent care of the patients that come to ACT. We are so excited about your accomplishments at ACT and look forward to many more years.
