

## Covid Vaccine

Below is a message and link from the Oklahoma State Department of Health for information and pre-registration for the COVID-19 vaccine. [You can find the direct link more easily from our homepage www.allergyclinicoftulsa.com.](http://www.allergyclinicoftulsa.com)

Earlier this week, OSDH announced the launch of an online COVID-19 Vaccine Scheduler Portal on Thursday, January 7, to notify Oklahomans when they're eligible to receive the vaccine and provide more information on how to schedule an appointment. As of today, Oklahomans can visit this portal at [vaccinate.oklahoma.gov](http://vaccinate.oklahoma.gov). Appointment scheduling became available on Thursday, January 7.

Pre-registration is open for all Oklahomans to enter their personal information to determine their eligibility to receive the vaccine within Oklahoma's priority phase plan and receive notifications when the vaccine is available to them.

Beginning Jan. 7 only Oklahomans who are 65+, healthcare workers and/or first responders will be able to schedule appointments. As our state advances in our phased approach to vaccine distribution, the system will notify and allow individuals in additional priority groups and phases the opportunity to schedule their appointment.

Please note that eligibility doesn't mean you'll be able to receive an appointment right away. Appointment availability will depend on vaccine supply in each county, which changes from week to week as the state receives more vaccine doses from the federal government.

If you're not currently eligible to receive the vaccine or if there are no appointments available in your area based on vaccine supply, registering in advance will ensure you are notified by email when your appointment is available.

As a reminder, there is no list for Oklahomans to be added to in order to be included in the state's phased approach to vaccine distribution. The Vaccine Scheduler Portal is a tool to help notify eligible Oklahomans when and where they can receive the vaccine when an appointment is available to them.

Oklahomans can begin the pre-registration process today at [vaccinate.ok.gov](http://vaccinate.ok.gov).

## 25 Year Anniversary

January 8, 2021, Tracy celebrated her 25th work anniversary with ACT. Tracy was hired as a part-time employee and after two weeks quickly transitioned to full-time. She has served many roles during her tenure, most recently as the Corporate Intake Manager overseeing the front office staff in all 5 branch locations. She also is the Executive Assistant to the Physicians and COO. Congratulations and we wish you the best in the years ahead. Thank you for being a valued member of our team!

*The Allergy Tracker App is available for both Android and iOS. The app allows you to track your injection dates & dose and send you reminders of your next injection. You are also able to view the addresses and hours for shots at each location. Also, receive pertinent notices about possible office closers. See our receptionist to receive your activation code and start your allergy tracker today.*

## Physician Staffing Changes - Dr Medagoda

Dr. Medagoda has announced her intention to end her journey with Allergy Clinic of Tulsa as a practicing allergist and partner. Her last day will be February 28th. This change will allow her to focus her attention on her children, as we all know they grow up quickly!

We will be working through many process changes as we ensure the best outcome for all patients. One of the first efforts will be to ensure there are no patients on her schedule after March 1st. Dr. Medagoda will assist in transitioning her more complex patients to another ACT Physician.

## New Insurance & Demographic Information

Did your insurance change effective January 1, 2021? [We need this information as soon as possible.](#) This allows us to verify your benefits, submit your claims and receive payments on your behalf in a timely manner. While we understand some patients may not have their new cards yet, they still should have access to their ID number and group number information through their carrier website. Our office staff does not have the ability to search out this information – it must be provided to us by the patient.

Please be aware that if you are unable to produce your insurance information at the time of check-in for an appointment, your visit will be considered to be **cash** pay. Full payment for services will be expected before you are seen. Once we receive the required information, we will be happy to file your insurance and refund any monies due.

We require patients to update Medical consent, financial consents, and demographic Information. These articles are important in order for us to serve you in the most expeditious and financially accurate way.

## Be Aware of Snow & Ice and Office Closings

If we have bad weather that comes in and makes it dangerous to drive in, we may close early. If you are thinking of trying to come in for your allergy injection on your way home you might want to call us or check our website [www.allergyclinicoftulsa.com](http://www.allergyclinicoftulsa.com) to make sure we did not close the office due to inclement weather. Allergy injection patients should also have our Allergy Tracker app, as we send out pertinent notices about office hour changes and possible office closers.

## Itemized Charges for 2020

There are some patients who have requested a list of itemized charges for tax purposes. If you would like this be done, please contact one of our financial counselors who would be happy to assist you. Our financial counselors may be reached by calling 918-307-1613. If you get our automated system, please press 6 for billing, then press 1 for billing questions.
