

Safety Policies & Expectations

Covid has been with all of us far longer than most imagined. It's clear people are stressed, confused and at times just plain exhausted. In order to fulfill our responsibilities to both our staff and our patients Allergy Clinic of Tulsa Physicians have mandated several patient safety measures that they expect our team to carry out and remind patients and visitors as necessary. We have been under a mask mandate now for over 15 months, that is not expected to change. Everyone in our clinics is required to wear a mask. We will no longer be giving out masks.

Allergy Injection Card

Per previous notice all shot patients must present with their scan card. This is a safety measure! The first card is always free, but replacement cards are \$2.00.

Policies

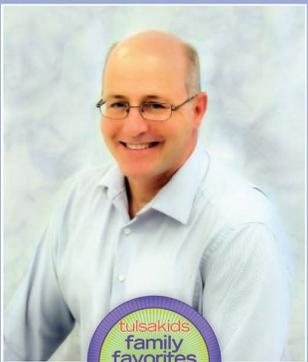

Our staff are required to ensure these MD posted policies are followed.
Beratement, bullying, cursing at staff may result in termination from the practice.

Hayley Celebrates 5 Years With ACT

Hayley started her journey with ACT in July 2016 after answering an ad for temporary data entry work. We were in the process of switching to a new computer system and needed to manually transfer/enter all current patient data. Hayley's superior work ethic and excellent skillset paved the way for her to be offered a full-time position in our scheduling department shortly thereafter.

In October of 2017, she was promoted to the front desk at Utica. Hayley brought her much needed smile and upbeat attitude to that position and continues to be an uplifting presence in that office. She is proficient in all front office duties, assists others when needed and helps out with training of new front office team members. She was instrumental in contacting patients and converting visits to telehealth during our "clinic/provider quarantines" last year due to COVID exposure concerns.

Hayley has an exemplary attendance record and always goes above and beyond for our patients. Her warm smile, empathetic attitude and willingness to help out the best she can has been commented on by several patients over the years.

Congrats Hayley on completing 5 years at ACT! You are a major contributor to the success of the front office team and the clinic as a whole!

Important Insurance Information

With many insurances, the copay for a Physician is different than a copay for a Nurse Practitioner and Physician Assistant. We do our best to get the benefits according to the patient's providers but, there are times an appointment is scheduled with a Physician and then may be moved to a different provider for whatever reason. In this case, please understand after your insurance processes the claim, you may have a higher copay than what was collected at the time of visit.
