

## **Description**

Bluegrass Orthopaedics has a full-time opening for a licensed athletic trainer at a high school in the London, Kentucky area. The athletic trainer will work under the direction of the Director of Sports Medicine and Business Development. This position will be required to work full-time at the school covering home events and away football games, while working to prevent, assess, and treat athletic injuries as well as educate athletes, parents, and coaches. The athletic trainer will work to keep solid documentation records of injuries and treatments utilizing HealthyRoster.

This position is a dual role position, but HS outreach responsibilities will take precedence over clinical duties. High School duties include, but are not limited to, fulfilling the 6 domains of athletic training, as well as community outreach. Clinical duties include, but are not limited to, special projects assigned according to the strengths of the individual athletic trainer, with time responsibility equivalent to one morning per week. Bluegrass Orthopaedics strives to be at the forefront of the most current practices and research, so occasional case studies and other research may be completed. This position also offers extensive opportunities for per diem work.

We are looking for a self-motivated, outgoing personality who enjoys working with athletes to prevent injury and help them realize their competitive goals. Bluegrass Orthopaedics provides a fun, family atmosphere, and the opportunity to work with many individuals from different disciplines. Wages are competitive with an excellent benefits package (health, dental, vision, long term disability, life insurances; paid licensure fees; continuing education allowance; 401k/profit sharing plans).

## **Requirements**

Position requires knowledge of medical terminology and some medical office clinical experience or knowledge. Current CPR certification required. Must be able to demonstrate ability to communicate effectively and clearly (both written and oral communication) and interact effectively with patients and other employees at all levels of the organization. Bachelors required, Masters and/or 2 years of experience is preferred. ATC Certification required, as well as Kentucky licensure or eligible for licensure.

## **Consideration**

For consideration, please send a CV or Resume, along with a cover letter and references, to Bluegrass Orthopaedics' Director of Sports Medicine and Business Development, Andrew Carlson, MS, ATC at [andrew.carlson@bluegrassortho.com](mailto:andrew.carlson@bluegrassortho.com).
