

MAKE YOUR OUTDOORS GREAT

10 EXPERT TIPS TO HELP KEEP THE PESTS OUT OF YOUR PICNIC

1

Change bird bath water weekly to prevent mosquitos.

2

Drill holes in lawn items where puddling can occur. They're like mosquito hatcheries.

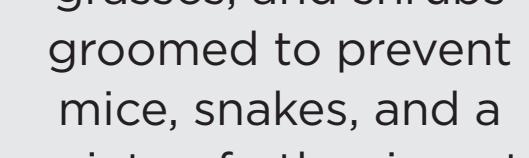

3

Empty left over pet food to prevent mice, ants, and roaches.

4

Don't store ANYTHING under the deck. Roaches love it under there.

5

Keep weeds, thick grasses, and shrubs groomed to prevent mice, snakes, and a variety of other insects from moving in.

6

Clean gutters and roof valleys to deter roaches, ants, and mosquitoes.

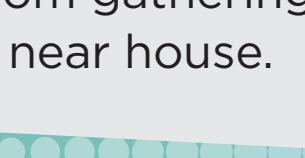

7

Eliminate wood piles to avoid attracting mice, snakes and all kinds of bad bugs.

8

Clean up excess birdseed to prevent mice.

9

Keep exterior lights off at night to prevent flying insects and spiders from gathering near house.

10

Thoroughly inspect under playground equipment, grills, decks, eaves, porches and patios for wasps. They sting and it hurts.
