

Step-by-step instructions below & watch "How to measure your kitchen" video (www.frugalkitchens.com/measure)

STEP 1:

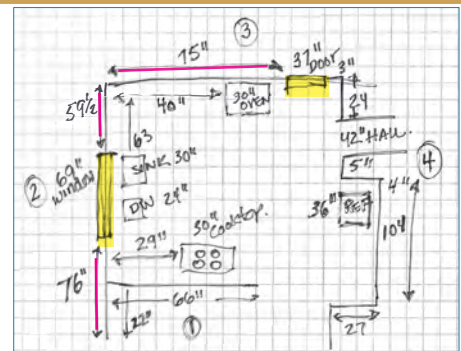

WALLS - Draw your walls as if you are looking down from the ceiling then measure in inches each wall that will contain cabinets. (Its ok to measure in small increments and we will do the math.)

STEP 2:

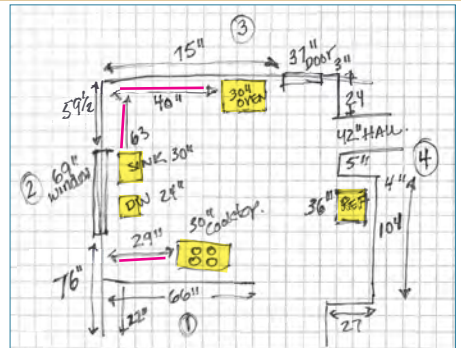

DOORS & WINDOWS Add to your drawing Doors & Windows by drawing a rectangle, then measure the width including the molding if you have trim and add that number in inches.

Next measure from one side of the window or door molding to the closest corner or end of wall.

STEP 3:

APPLIANCES Add a square to locate your refrigerator, cooktop / range, dishwasher and sink. Next measure from one side of the appliance to the closest corner or end of wall.

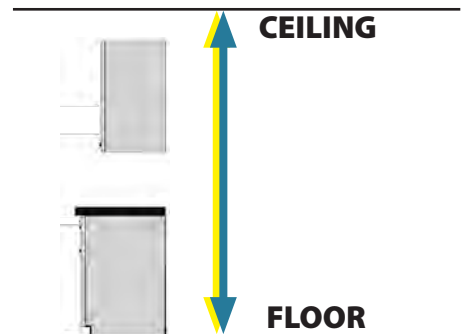

STEP 4:

CEILING HEIGHT Let us know How High is your ceiling

Check one that applies:

- ☐ 8ft (96")
- ☐ 9ft (108")
- ☐ 10ft (120")
- ☐ Other _____

STEP 5:

TAKE PHOTOS from different angles -Email to designer BEFORE appointment! We will use as point of reference while working for your project. We will take professional measurements prior to your final layout.
