

The Healthcare Business Management Association has developed, in partnership with Healthcare Compliance Pros, the **HBMA Compliance Accreditation** program.

This program establishes and maintains standards to help safeguard your organization's exposure to HIPAA fines and penalties; and protects against audit risk from the Office of the Inspector General (OIG) for HHS.

The program provides the expertise and resources to indemnify your organization.

HBMA accreditation shows your clients, business partners, and patients that you are committed to protecting them and their information from fraud and abuse.

The Program will include a thorough review and evaluation of your HIPAA standards and OIG Workplan Implementation criteria.

Certified compliance professionals are assigned to each member organization to maintain your Program, thus ensuring that you stay in compliance and have all of the necessary elements and documentation to achieve annual re-accreditation.

The following key elements will be assessed and managed throughout the year for your organization:

- **Policies and Procedures**
Development, Review, and Updates
- **Employee Training**
Initial and Ongoing
- **Security Risk Analysis**
Organizational, Physical, and Technical Safeguards
- **Documentation**
Storage and Reporting of Disciplinary and Corrective Actions
- **Exclusion List Monitoring**
Employees, Vendors, Clients, Physicians
- **Breach Determination**
Evaluation and Corrective Action Plans
- **Business Associates, Clients, & Vendors**
Agreements and Contracts
- **Compliance Committee**
Meetings, Reporting, and Documentation
- **Disaster and Emergency Operations**
Development, Implementation, and Training
- **Internal Monitoring & Assessments**
