

ARTWORK SPECIFICATIONS

Please note that most of our templates are at ¼ scale

- Use provided template (File Name: Template_Overview) in Illustrator and keep all artwork on ART layer. **DO NOT** adjust any of our template layers or information.
- Do not delete any artboards in the file, they are needed for print preparation.
- Outline all text.
- Embed any images used in the file.
- All images should be at 400dpi so when enlarged to full size they maintain quality.
- Provide any Pantone/PMS colors used in the file when submitting artwork.
- Keep all text and logos within the SAFE AREA. Do not have any text/letters overlap from panel to panel.
- All artwork must be extended to the bleed line
