New Feature in Online Banking: Member-to-Member Transfers

We're making it easier than ever to move money between Coosa Valley Credit Union accounts! Now available, you'll see a new option in Online Banking: Member-to-Member (M2M) Transfers. With M2M, you can quickly transfer funds to another CVCU member, or even make loan payments to another CVCU member account. All you need is:

The member's account number, their 4-digit share or loan ID, and the first 3 letters of the primary account holder's last name (or the business name).

This feature is great for: sending money to family members who also bank with CVCU, helping kids at college with quick transfers, making payments on another member's CVCU loan (mortgages and certain other loans are excluded), and more!

Transfer Limits:

- Daily dollar limit: \$2,500
- Individual transfer limit: \$2,500
- Daily transfer count: 10

To get started, simply look for the "M2M Transfer" option under the main menu within online banking. Then, follow the prompts.
