

UPCOMING ONLINE BANKING UPDATE MAY CAUSE DOWNTIME; WILL AFFECT ALERT FEATURE

On January 18, 2023, Coosa Valley Credit Union will be updating its Online Banking service. As a result of this update, there may be service interruptions during the evening of January 18, between the hours of 6 and 9 p.m. Service interruptions may include debit card transactions, Online Banking and audio response.

In addition, any **account alerts** members have setup within Online Banking will be lost, and will need to be re-setup. Please login after Jan. 19, and tap "alert preferences" from any of your accounts within the app to set them up again. Please review your Online Banking accounts closely after Jan. 19, and let us know of any issues.

As always, if you have questions, [we're here to help](#).
