

Notice of Upcoming Planned System Upgrades

Due to planned system upgrades on April 22, some services, such as debit cards and online banking, may be unavailable at times on that day. While we do not expect any issues to arise, as always, please be prepared with alternate forms of payment should intermittent downtime occur.

In addition, due to this system upgrade, all Coosa Valley Credit Union ATMs may experience some downtime between 4/17/2024 and 4/23/2024. Should ATMs experience downtime, you may make after hours deposits at any branch night depository, or by logging into our mobile app and using the remote deposit feature. We apologize for the inconvenience and appreciate your patience.
