CEO Spoofing			✓

Anti-Spam	Automatically blocks unwanted junk email before it reaches your inbox, reducing clutter and distractions so you can focus on real messages.
Anti-Phishing	Stops fake emails that try to trick users into clicking links or sharing passwords, helping prevent fraud and account takeovers.
Graymail Filtering for Outlook	Separates low-priority emails like newsletters and promotions from important messages, keeping inboxes clean without deleting anything.
Microsoft 365 or Google Workspace Support	Provides expert help managing email, users, and settings in Microsoft 365 or Google Workspace, so your systems stay secure and run smoothly.
Microsoft 365 or Google Workspace Backup (up to 60 GB per user pooled)	Creates secure backups of emails, files, and calendars so your data can be restored if something is deleted, lost, or compromised.
Dark Web Monitoring	Monitors known dark web sources for exposed company email addresses or passwords and alerts you if employee credentials are found.
Cybersecurity Training	Teaches employees how to recognize threats like phishing, unsafe links, and social engineering through easy-to-understand training.
Phishing Testing	Sends simulated phishing emails to employees to safely test awareness and identify areas where extra training is needed.
DMARC Monitoring - Email Impersonation Protection	Helps prevent attackers from sending emails that pretend to come from your company's domain, protecting your brand and reputation.
Sensitive Data Protection	Helps prevent confidential information like personal data or financial details from being accidentally shared through email.
Outbound Email Encryption	Encrypts sensitive emails so only the intended recipient can read them, protecting data in transit.
AI Intent Analysis	Uses artificial intelligence to analyze emails for suspicious behavior and intent, catching threats that traditional filters may miss.
CEO Spoofing	Detects and blocks emails that impersonate executives or leadership, a common tactic used in financial and wire-transfer scams.
