Board Member Certification 718.112(2)(d)3,b.,F.S.

The timing and content of the candidate certification form has changed. Prior to July 1, 2010, a candidate for the board was required to certify in writing that he or she has read and understands, the governing documents of the association and the provisions of chapter 718 and the rules.

The law now provides that within 90 days after being elected or appointed to the board, the board member must certify that he or she has read and understands the governing documents and will faithfully discharge his or her fiduciary responsibility.

In lieu of this certification, a board member may submit certification of satisfactory completion of a division-approved condominium educational curriculum.

Failure to do either of these means that the director is suspended from service on the board until he or she complies. The board may temporarily fill the vacancy during the period of suspension. Associations must maintain the certificates for five years after the election.
