Mold...Not In My Building?

Upon completion managers will:

1. Understand the history of mold.
2. Identify the experts that should be consulted when considering mold restoration.
3. Name the three basic groups of mold.
4. Recognize mold related symptoms
5. Identify reasons why mold is a potential problem in condominium buildings.
6. List ways to minimize mold litigation potential.
7. Name three common types of mold testing
8. List four types of mold inspections.
