Bi-fold door configurations

Choose a bi-parting bi-fold door to open from the center to symmetrically frame your view.

Select a uni-directional bi-fold door to stack panels completely to one side for a wide-open view; available in left or right operation. Add an access panel to quickly transition outside.

Bi-fold hardware

A concealed locking system is built within the door panels for a clean look. Effortlessly rotate the interior twin bolt handle up 180 degrees to unlock and open the door; rotate down to lock and secure. Magnetic door catches come together to protect the panels when open.
