OPERABLE GLASS

Operable glass is an optional feature in our iron doors, allowing for independent opening to enhance ventilation, security, and easy cleaning.

*Color finishes and glass samples represent approximate product colors and glass transparencies. Selections should be made by viewing actual product or product sample piece.

PHOENIX
IRON DOORS

WHY IRON?

Security

Metal doors provide great security and versatility compared to similar products built with other materials.

Sustainable

Simple and easy to clean. Lukewarm water, neutral soap, and a soft cloth will keep your iron door looking fresh.

Specially Made

If you’re looking for a one-of-a-kind door to enhance your living space, Phoenix provides custom-made doors tailored to your exact specifications.

Superior Hinge System

Phoenix uses a minimum of 3 welded ball bearing hinges to support your door and ensure it will continue to properly operate.

Finish

Phoenix uses a 7-step automotive paint process starting with rust inhibitors and hand finished with a final application of one of our 7 finish colors.

Warranty

Phoenix offers a 10-Year Product Warranty and a 2-Year Finish Warranty to help protect you and your new work of art. North Georgia Replacement Windows also offers a Limited Lifetime Service Warranty.

WHY PHOENIX?

Arte

Artistic skills are used to design, engineer, and create a working, useful, and beautiful architectural element.

Fuego

The power and energy of fire bends iron to create a masterpiece so unique it is impossible to replicate.

Hierro

Iron begins as a rough element that with passion and skill can be transformed into something incredible.
