Company: WellStar Health System

Position: Medication History Specialist

Location: Douglasville, GA

Posted: 4/28/21

End Date: Until Filled

Job Description: Medication History Specialist (MHS) As an integral member of the Emergency Department team, responsible for working with patients who have been identified for admission to the hospital in order to obtain and document the best possible medication history. MHS role is essential to assure high quality and safe care by reducing medication duplications, commissions and possible errors. Information obtained will be accurately entered into the computer system and it will be used by the physician, pharmacist, nurse and other healthcare providers as an input into treatment plans and medication orders during hospitalization, and in discharge planning for post hospital transition and care.

Company: Mednax
Position: Hearing Screen Technician
Location: Marietta, GA
Posted: 4/26/21
End Date: Until Filled

Job Description: As a newborn hearing screener, you will provide hearing screens in the hospital to babies who may be just a few days old. You need great communication skills as well as the interest and ability to learn; we will provide you with the rest of the training you need to succeed. On a typical day, you will conduct newborn hearing screens, usually in a new mom's hospital room, and help educate parents about the importance of the screen using video and printed tools we provide. You will also be in charge of entering patient data and validation of hearing screens, as needed. Additional responsibilities may include helping to confirm or reschedule outpatient appointments, following up on any equipment issues and training new staff.

Company: Ledgent Technology

Position: Senior Systems Administrator

Location: Marietta, GA

Posted: 4/28/21

End Date: Until Filled

Job Description: We are seeking an experienced technology professional to provide network and systems administration, support and maintenance in a mixed Windows and Linux environment. The primary focus of this role is Windows server and desktop management. Administration of network equipment including Brocade/Ruckus/Broadcom switches and Juniper and Cisco firewalls. Support of Linux operating systems, XenServer virtualization, SAN/NAS systems, and Nutanix will be required at times. Our Windows environment provides authentication (AD), DNS, and DHCP services to our entire Windows and Linux environment. Some of our Windows systems are virtualized on a XenServer platform, some are housed within AWS, and some are physical and reside in our data center. Additionally, this role requires administration of Office 365 (Exchange) and Microsoft EMS (Intune, Azure AD, MDM/MAM, DLP, AIP). This role requires working with software developers and business users to provide for their computing needs while maintaining security and adhering to established standards. This is a HIPAA compliant, SOC 2 Type 2 certified, and NIST CSF aligned environment. Adherence to these standards is required.
